Art Unit: 1714

In view of applicant's amendment following final office action has been necessitated. Cancellation of claims 2, 4, 6, 8 is acknowledged.

Information Disclosure Statement

With respect to the PTO-1449 submitted by with filling of this application, a copy signed by the examiner should've been provided with last office action. The examiner would like to apologize if that caused any inconvenience. Copy of the signed 1449 will be re-submitted with this office action.

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 3, 5, 7, 9 are rejected under 35 U.S.C. 102(a) as being anticipated by Yamamoto 081166/2001.

The discussion of the disclosure of the prior art of Yamamoto from paragraph 3 of the previous office action mailed on 2/23/2003 is incorporated here by reference.

Art Unit: 1714

In the arguments filed on 4/23/0003 the applicant argued following:

a) the prior art of Yamamoto does not qualify as a 102(e) prior art since it does not satisfy 102(e) rules.

With respect to the above argument, the examiner agrees and does not understand what possessed her to write 102(e). Obviously it is not a US document nor it was published in english. The prior art of Yamamoto qualifies as a 102(a) prior art, which can be easily overcome by submitting certified translation of the priority document.

b) the end product of Yamamoto is not biodegradable.

With respect to the above argument the examiner disagrees. [0001] specifically discloses that feature.

c) The prior art of Yamamoto does not teach step of reacting recycled aromatic polyester.

With respect to the above argument the examiner disagrees. The prior art of Yamamoto utilizes PET, wherein terephthalic acid is aromatic, that is obtained from bottles and so on [0003]. The PET of Yamamoto is therefore recycled.

For applicant's convenience, a computer translation of the prior art of Yamamoto will also be furnished with this office action.

Art Unit: 1714

d) Applicant's arguments with respect to the prior art of Ihm will not be considered due to discontinuation of this prior art against present claims.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
